Mesenteric lymphadenitis Treatment - Mayo Clinic Mesenteric lymphadenitis is an inflammation of lymph nodes. The lymph nodes that become inflamed are in a membrane that attaches the intestine to the abdominal wall. These lymph nodes are among the hundreds that help your body fight disease. Mesenteric lymphadenitis often causes abdominal pain. **Acute Non-specific Mesenteric Lymphadenitis - NCBI - NIH** Mesenteric lymphadenitis Learn about a temporary condition that causes stomach pain in children and teens and mimics the warning signs **Mesenteric Lymphadenitis: Causes, Symptoms, and Treatment** ACUTE nonspecific mesenteric lymphadenitis is a common cause of pain in the abdomen of children.
