

## Of Philosophers and Fools

Of Philosophers and Fools is a book that seeks to capture the awe and mystery that surrounds an individual as they embark upon their philosophical search, simply displaying how the burden of truth weighs along certain mens shoulders. Like any book, it is but a record of all the things that one particular man has learned throughout his life. While the book does track upon the paths of philosophy, sociology, linguistics, and education, the themes constantly circulate around that of the truth-seeker-the wanderer that casually moves about his way. (Revised 2011 Edition).C.J. Cala is the author of 14 Surreal Absurdities and Four Different Faces. His philosophical works can be found in the book 23.ALL OF C.J.
