

A Woman Can Do That! 10 Strategies for Creating Success in Your Life

A Woman Can Do That! is for all women who want to succeed in life. In addition to defining a new paradigm for success, in which measurement is based on your own definition of success rather than on the perceived expectations of others, this book will help you to create success in your life by giving you: -- Strategies and examples on how to be successful, both in business and in life. -- Processes, action steps, and tips on how you can create success from within. -- Real life examples on how a woman can enjoy success, regardless of family background and experiences, educational background, economic status, the way she has been treated, and past mistakes.
