

The Queens of Merab: Temairs Aire

On the world of Merab, women rule, while men wield the magic. Its been an equitable system, until now. Temair knew that one day shed have to step up and take her place as Queen of Emetra; she just didnt expect for it to happen so soon!Now she finds herself on a Tour of the Queendom in search of her four Consorts -- the four men whose Elemental magic will awaken hers. Her First Consort, Fyre Lord Miach is all warrior. Her Second Consort, Rayne Lord Dathan is all play. Bonding with Fyre and Rayne was almost effortless. Aire is giving her some problems -- mostly because his mother has him so sequestered that Temair hasnt even caught a glimpse of the man!When she finally does, Temair isnt at all prepared for what she finds. Instead of a stone cold fighter or a playful playboy, she finds a man scarred by life. Zevan needs more than Temairs love; he needs the love and support of the family shes building, too. Only by seeing himself through their eyes can he truly believe hes worthy to be Temairs Aire.
