

The Ramblings of a Father

The Ramblings of a Father started as the Dear Jasmine letters Daniel began writing to his granddaughter before she was born. The letters became part of a book, which turned into a book of poems. The theme is, as Daniel would say, basically just simplistically realistic ramblings about experiences, emotions, family, and my way of life. Daniel would hope that the readers would respond by relating to the poems. It is intended to create a response of thought and or emotion.
