

The Last Lie: Finding Love After Betrayal

The Last Lie is about the lies we tell ourselves that keep us in destructive relationships. Through my work as a psychotherapist and my own personal experiences, I began to feel as though there were two powerful rivers converging within me. Like a confluence of energies, these two rivers were guiding me to do something I could not have known or understood when I first began writing. They were leading me to examine my own struggles in order to create unique tools that would help others find a way to embrace a better life. This book tells you how to take a huge leap a leap to catapult yourself into freedom and joy. It offers a hand-up to get through challenges you need to face and to live the life you always wanted. The past does not always determine your future you do!
