

Reflections of Nature

REFLECTIONS OF NATURE An Anthology of Nature Poems EDITED BY STACY SMITH Gathered here in this anthology are 121 poems, written in rhyme, by 50 poets along with illustrations that help capture the described images of the poems. Almost all of these poems give a positive view of our natural surroundings. They describe the beauty of these surroundings and the joy, peace and warm feelings that nature can bring. This superb collection shows a great appreciation for the environment from the animals to the flowers and trees. Sometimes when we were facing problems and need comfort, the answer may be just outside the door and Reflections of Nature proves just that.
