

Return Fire

Former Lieutenant Elle Evans is a security consultant in New York. She has an office, a secretary, pays taxes, and works hard. When she's not abiding the law, she's working freelance for a mysterious government agent, stealing secrets, causing problems, and occasionally killing people that need it. Her latest mission, however, has her doing something she never imagined she'd ever do- go home again. As the job begins to unravel, she's getting shot at, chased, and even going out on a date with her high school sweetheart, and wondering which is worse. She has only a short amount of time to figure out how to stay alive, finish her mission, and get the hell out of Arizona. She could run, sure, or hide, but when they're shooting at you from all directions, there's a lot of things you could do, but only one thing you SHOULD do.
