

Revelations of Awakening: Whisperings From the Heart

Revelations of Awakening, is a collection of poetry and writings, that I had written over the span of several years following my spiritual awakening in 2012, and are a reflection of the emotions and thoughts, that I experienced as I quested for healing and truth. Throughout my quest, (guided by my spirit guides) I traveled throughout Mexico, Arkansas, Oregon, California, Utah and Arizona, gathering teachings from the peoples, places, and events that I encountered along my way. As well as this book, I am also writing an in depth account of the events and miracles that transpired, as I journeyed on my quest of Self-Realization. So please be on the lookout for this up and coming account, where I will share with you the hard to fathom events, characters, and mishaps, which ultimately ended up transforming my entire life, from the inside out.
