

Rising Leviathan (After Eden Series, Book 3)

Rising Leviathan is the latest science fiction and international thriller in the After Eden series by Austin Dragon—a dramatic mix of politics, religion, and intrigue. The saga continues in the year 2096 with the inexplicable death of the Russian president. Or was it murder? As one leader falls, a deadly power rises. Will there be war or more than one? The march to the explosion of World War III continues—the first global war of the Tek Age, a hell we have never seen before.
