

The Time Cheaters: Part 1

Professor Maxwell Muddle is a time traveler with a problem. Hes a history professor from the sixteenth millennium who has traveled back in time in a space cruncher called the Star Truck. His assignment from President Dephinius Dreirott was to test a new time travel technology by erasing a small, insignificant wrinkle in time. However, on every occasion that Muddle erases a little wrinkle in time, he creates a tsunami of disastrous consequences. Join Muddle as he races through time to carry out his mission and remedy the crises that he, his friends and enemies inflict on the flow of spacetime in The Time Cheaters.
