

Searching for Atlantis

Archaeologist Dr. Henry Randalls is challenged to discover one of the greatest mysteries in the world: the Lost Continent of Atlantis. This once powerful empire contained palaces of gold, silver, and wealth untold. But then, mysteriously disappeared. Accepting the venture, Dr. Randalls team flies toward Portugal, but crash lands near the home of sea-going pirates, with evil intentions. Escaping the pirates, the group eventually joins up with their research ship near Crete. After some delay, an ancient shipwreck is discovered with priceless artifacts and a possible link to Atlantis. Before determining its total value, a hostile force kidnaps Dr. Randalls team. Taken to a secluded location the group finds itself in the company of a bomb-on a timed fuse. Will the group somehow escape? If they do, will the shipwreck treasure lead to Atlantis?
