

## Success TRAPS: Awaken your Realized Potential for Lasting Fulfillment

Success TRAPS in life are mainly due to misdirection; we believe our decisions are leading us in one direction, yet they set us on a course to experience the unexpected. This landmark publication taps into the riches of human motivation by stimulating an awakening of unleashed passion and tension, and the use of a new mindset for succeeding in life. Each chapter provides an inspiring outlook, collective wisdoms, tips, tactics and quotes to ponder that compels people to reach significantly higher levels to win on life's battlefield. It offers a practical perspective that should serve as a foundation on the study of self, people, conversations and relationships, and management and leadership. It is grounded on a simple, yet fundamental principle: First learn to lead yourself and then lead others to find their voice. It is both relevant and practical. Pitts, a U.S. Marine turned business professional, provides the essentials for anyone to keep striving for excellence no matter where they are or what they are doing. The advice benefits anyone in a work or non-work situation that is pressure-laden, but ultimately lacking in real personal satisfaction. Basically, it teaches what to do when you find yourself out at sea and in the water alone - you put your head down and swim through the rough waves. Get ready for an exciting ride, but be prepared for a little emotional turbulence if you're honest with yourself to create the needed opportunities that question your intentions in life. The metaphors, idioms and strategies outlined glean valuable insight that when put into practice helps you to develop the essential life skills used to change current and future circumstances. Success TRAPS is more than another self-help, business and professional development book; it offers the attitude adjustment and practical tools that transition into more happiness and a fulfilled lifestyle!
