

## Talon and Fang (Outlanders #25)

The Struggle To Save The Future Finds A Treacherous New Battlefield: The Past Imperium of Evil Two centuries have tortured earths nuke-altered frontier into a grim new world, clasped in the bloody vise of a power struggle between hybrid barons and a mysterious Emperor. A soldier turned renegade, Kane and his band of exiles have learned the horrifying truth of earths ageless domination -- knowledge that has led them to the secret realms of humanitys master manipulators where they battle against a dark interlopers blueprint for doom. Matrix of Salvation Kane finds himself twenty-five years into a parallel future, a world where the mysterious Emperor has seemingly restored civilization to America, overthrowing the baronial oligarchy -- with the help of the Cerberus exiles. In this alternate reality, only Kane and Grant survived the battle, and its spilled blood has left them estranged. Yet Kane is certain that somewhere in time lies a different path to tomorrows reality . . . and his obsession may be humanitys last chance to battle evil in two worlds -- the past and the future -- where a sinister madman controls the secret heart of the world.
