

## Didnt See it Coming

Warning: This book stands as a protest against the millions of novels that obligingly give female characters ample breasts and legs that go on forever. Both critical and comical, *Didn't See It Coming* presents the story of Hillary Strife, a woman whose quirky methods of fighting boredom and failure lead her down an engrossing path of discovery and destruction. Faced with toxic relationships, sexual harassment, and the eventual unraveling of her life as a mother, Hillary allows others to slap her soul silly. She seeks perverse gratification in an effort to strike a balance between tolerance and all-out revolt. You'll find *Didn't See It Coming* carries messages worthy of a time capsule about our era.
