

Disastrous Voyage of the Santa Margarita (Severn House Large Print)

Among the coral outcrops of the island of Rota, lies the wreck of a Spanish galleon, the Santa Margarita - Spring 1601. This is a reconstruction of the Santa Margaritas disastrous last voyage, beset by an extraordinary sequence of typhoons and storms. Based on what little is known of the ships journey overloaded cargo, bad-blood amongst the crew and a curse we are told a story of greed, horror, deprivation and unimaginable hardship by the handful of survivors rescued from the wreck.
