

Joan, the Curate (Classic Reprint)

Excerpt from Joan, the CurateIt was soon after the peace of Aix-la-Chapelle, in 1748, had put an inglorious end to an inglorious war, that the Government of the day began to give serious attention to an evil which had been suffered to grow while public attention was absorbed by battles abroad and the doings of the press-gang at home. This was the practise of plundering wrecked vessels, which had been carried on in combination with the smugglers daring and dangerous trade, particularly on the wild marsh coast south of Kent, and the equally lonely Sussex cliffs beyond.
