

The Prisoner of Zenda

The Prisoner of Zenda brings the fairy tale of Mark Twains The Prince and the Pauper and Puddnhead Wilson into the adventure genre for adults. Anthony Hopes story of a king kidnapped on the eve of his coronation and his English cousin who takes his place is derring-do at its best. Sure the story has been done over and over again but thats because the story is so entertaining. It was written at at time before two world wars forever altered the map of Europe. Ruritania exists in a time when it was possible to still imagine tiny kingdoms and principalities tucked among the better known countries. Think of Ruritania existing along side the duchy of Luxembourg and the principality of Monaco. The hero and narrator of Zenda is twenty-nine year Rudolf Rassendyll who shares a name and certain physical features with soon to be crowned Rudolph IV of Ruritania. Unfortunately for all those involved, Rudolph IV is an idiot and easily falls prey to a plot to take the crown away from him and possibly end his life. To keep things in check while the king can be found and rescued, Rudolf Rassendyll must play the king. Throughout the narrative Rassendyll gives amusing commentary on politics and the responsibilities of leadership. All the while he is putting himself in harms way both in his portrayal of the king and in trying to rescue Rudolf IV.
