

# The Push: The Rich Chicks Guide to Being Mother-Freaking Exceptional, a Superwoman, the 1% and Okay With It.

The push is about that constant need to be, to do, to prove yourself. No matter how much you do, its never enough. No matter how high of a mountain you scale - and even though you may feel good about it, for a moment! - theres still more ahead of you. An unquenchable thirst for - What? To show the world that you are an achiever, a go-getter, a superwoman? To position yourself as a leader, a winner, the best? No. The admiration of others is nice, to be sure. But to be honest its also just expected. You KNOW you do more. You KNOW you take on too much, and yet still complete it. You KNOW that the way you live your life is not only impressive, but in fact astonishing, astounding and even plain unbelievable to others. You KNOW you are the 1% within the 1% within the 1%. So really, what is there to prove? Proving youre ahead of the rest proves nothing to the one person that counts. Which brings us back to the push. The push is not about the world. The world and the limitations of the ordinary person, yes even the successful ordinary person, really have nothing to do with you. Because the push is about you. The push is about your need to prove something to YOU. The PROBLEM with the push and the way you dance with it now, is that youre trying to prove the unprovable. Another way to look at it - havent you ALREADY proven (and how many times now, lets be honest?) that no matter what you may do, will ever do, could ever do, no matter how many times you achieve the improbable or even the impossible it will still. never. be. enough. And the push will always win because the only thing that truly IS impossible, for you, is to not push. So why this book? Its simple. If you dont learn how to work WITH the push, the push will control you, forever torment you, and very easily can, through the exhausting search for MORE, destroy you. This book is about taking charge of the push. Using it

for good. Using it to be, and do, and have what you TRULY desire and are born for, rather than having it TELL you what you need to be, and do, and have, in order to be ENOUGH. Know right now that you are already enough but also you will never BE enough, and thats okay. In fact, its more than okay. Because the realisation that the end of achievement never comes is incredibly freeing, and if you really THINK about it, it allows you to now move forward from a place of only giving a fuck about the things you really do give a fuck about. The secret is - you have to know what those things are, and you have to be able to take CHARGE of the push and make it dance to your tune. What this book is really about, is finding your own tune. And then spinning the world on its head as you dance the motherfreaking crap out of it. In this book we will cover :- - Sometimes You Just Wanna Be Normal! - Seriously, Why Arent You There Yet? - It Will Eat You Alive, If You Let It - So, What Are You Really Working For? - Success Begets Success - The Greatest Lesson - Push, Pull, Dance Every Day - Youre Not Aiming High Enough - So Youre Selfish, Demanding, Relentless and Stubborn as a Mule? Welcome to Creative Genius Success. - The Secret to Everything: INSIST On Your Way - Being Freaking Exceptional At Being You - Ultimate, Ultimate Truth For Those Who Push Scroll up order your copy of The Push, Now!
