

## The Receivers:: A Telepathic Awakening

A story of ghosts! A story of love between two souls, a love exempt from gender, sex and social rules! A story of the very core of truth, freed by nature's unrivaled communication! THE RECEIVERS is a new novel exploring the possibility that we all are telepathic and is presented through the journey with Professor Thomas Barns and his telepathic associates, as their adventure leads them to solving crimes of murder and rape, political crimes against mankind, and connecting the spirit world with the physical world; for those whose loved ones have crossed over. The mission of Professor Barns is to find the third key necessary to open conscious telepathic reception for everyone, and he's almost there!
