

Front Stack

The gloves are off in this high-octane, no frills cop thriller... Hitch a rollercoaster ride on a police carrier around the streets of London with Jax, the Cat, Dynamo, and Task Force Team Uniform-X-Ray 646. Feel your lungs burn as you chase robbers and fugitives, then wrestle with violent drunks. If you're still keeping up and haven't gone home in despair; wring your hands in frustration as you bring resourceful drug dealers before naive magistrates and watch them walk. Track down burglars and vicious perpetrators of domestic abuse; then stand between the doctor and the lunatic. Front Stack blurs the line between fact and fiction and takes you behind the blue and white cordon tape, exposing you to the everyday dangers faced by the cops, and the black humour so badly needed to remain sane in a world stalked by the insane. Pick your way through the filth and misery of those dingy houses home to London's underclass; watch out for the inevitable snarling status dogs, and don't forget to wipe your feet on the way out. Had enough of being thrown around in the back of a carrier attending endless so-called emergencies? Step off the rollercoaster, swap Jax's carrier for foot duty, and try to keep up with the public order officers of the Metropolitan Police as they sprint along Tottenham's lawless and riot-ravaged streets dodging missiles and searing petrol bombs. But don't forget to grab a shield. You'll need it in your battle to hold the front line.
