

If You Want to Be Cool, Stay in School: Never Give Up

This book was written with the millions of students, parents, and educators in mind. Its sole purpose is to lay out in plain English the consequences of dropping out of school, drug use, and involvement with street gangs. It also speaks candidly about how wonderful life usually is for those that choose to get an education as opposed to those that are more interested in immediate gratification. It is hard hitting and no punches are pulled because the drop out rate is unacceptably high and must be dealt with immediately if not sooner.
