

## The Sea Watch (Shadows of the Apt)

The sixth novel in the thrilling, epic Shadows of the Apt series, taking place in a universe populated by different races of humans with insect characteristics. A shadow is falling over Collegium. Despite the tenuous peace, Stenwold Maker knows that the Empire will return for his city. Even as he tries to prepare for the resurgence of the black and gold empire, a hidden threat is working against his people. Ships that sail from Collegium's harbor are being attacked, sunk by pirates, and some just go missing. Lulled by the spread of lies and false promises, Stenwold's allies are falling away. He faces betrayal on every side, and the Empire is just waiting for the first sign of weakness to strike. But the Empire is not the only power that has its eyes on Collegium. And even the Wasp-kindens may not be powerful enough to stave off the forces massing in the darkness.
