

Legacy of the Gods (Order of the Nexus) (Volume 2)

Throughout history, heroes and villains have sought to obtain the artifacts and treasures left behind by the gods believing they will bring them great power. Some are merely legend; some, embellishments of ordinary objects; and some may just be the real deal. Greg Cross is a man who knows this all too well, because his own encounter with just such a relic, though bequeathing him a power unseen since times of myth, very nearly cost him his life. Now on the hunt for another ancient artifact, the final piece of a puzzle left behind by the last member of the enigmatic Order of the Nexus, Greg and his friends must follow in the footsteps of those who last sought it over a thousand years ago. But this particular piece is one of the most famous myths in the world, and one that in the wrong hands could tip the balance of power towards the very darkness the Order hoped to prevent. Authors Note: Legacy of the Gods is the second in the series Order of the Nexus. The first installment Secret of the Nexus is also available on Kindle and in Paperback
