

Illustrated Classics Editions the War of the Worlds

Great Illustrated Classics are excellent books for most young readers at home or in the classroom. In addition, the Great Illustrated Classics are great books for those learning ENGLISH AS A SECOND LANGUAGE. Teachers also love these books for remedial reading instruction. Famous for the mistaken panic that ensued from Orson Welles's 1938 radio dramatization, *The War of the Worlds* remains one of the most influential of all science fiction works. The night after a shooting star is seen streaking through the sky from Mars, a cylinder is discovered on Horsell Common in London. Naive locals approach the cylinder armed just with a white flag-only to be quickly killed by an all-destroying heat ray, as terrifying tentacled invaders emerge. Soon the whole of human civilization is under threat as powerful Martians build gigantic killing machines, destroying all life in their path with black gas and burning ray. The forces of Earth, however, may prove harder to beat than they appear.
