

The Courtship of Morrice Buckler: A Romance (Classic Reprint)

It chanced that as I was shifting the volumes in my library this morning, more from sheer fatigue of idleness than with any set intention for, alas! this long time since I have lost the savour of books a little Elzevir copy of Horace fell from the back of a shelf between my hands. It lay in my palm, soiled and faded with the dust of twenty years; and as I swept clean its cover and the edges of the leaves, the look and feel of it unlocked my mind to such an inrush of glistening memories that I seemed to be sweeping those years and the overlay of their experience from off my consciousness. I lived again in that brief but eventful period which laid upon the unaccustomed shoulders of a bookish student a heavy burden of deeds, but gave him in compensation wherewith to reckon the burden light. The book fell open of its own accord at the Palinodia at Tyndaridem. On the stained and fingered leaf facing the ode I could still decipher the plan of Lukstein Castle, and as I gazed, that blurred outline filled until it became a picture.
