

## Stepfathers Manipulation: The Pains of a Dyslexic Boy

This is the first book I have ever written. This is a fiction based on a true story of a manipulative wicked stepfather who captures the heart of a beautiful, innocent married woman with three children-one boy and two girls-from a different class background. The stepfather is hell-bent on jealousy of the younger siblings, especially the boy. The stepfather disregards his own family, leaving behind his wife and his only son, with no regard to contacting them in the future. An expression from the author who has lived this life does not want this to happen to anybody else, giving you an insight to the manipulation of a wicked stepfather, who manipulates a young boy to remove him from the family with the use of cunning, evil manipulation in such a way that alters the personality and social standing of the young boy, eventually removing him from the family unit and destroying his morals at same time, with a disregard to the young boys feelings, and at the same time, destroying his social life and future.
