

Guide to Greatness

Guide to Greatness is an inspiring recipe book with principles and guidelines to help the reader discover the greatness within. Dale Christensen has gleaned the best ideas and practices and applied them in a way that will help every individual to realize that they do not have to be something else or someone else to be great. They can be themselves and find their own worth and influence. Regardless race, gender, religion, wealth, status or age each person can find greatness and then bring it to their family, profession and sphere of influence. The principles and practices of being great can be discovered, developed and shared. More than at any other time in the history of the world, each person can and must contribute to making the world a better place.
