Caution!! For Mature Readers Only.
This book contains black comedy, social satire, and disturbing scenes of graphic violence - in addition to British spelling - which have been known to cause consternation in less intelligent readers. Side effects include: thinking, learning, and other latent, self-reflexive behaviours that could lead to further contemplation.*

If you think you are at risk, please consider the following statements: - Tropic Thunder, Thank You for Smoking, and Dr Strangelove are tragic and unamusing - Stephen Colbert is Americas Great White Hope - The Daily Show is for morons; Fox News is for The Chosen If you answered yes to any of the questions above, DO NOT BUY THIS BOOK. This book is for enlightened readers only. Apologies to the rest of you, especially those who gave a review of 2 stars or lower, as the experience must have been a psychologically painful one (otherwise you wouldnt have bothered to review it in the first place). Description: Endangered Species is a brand-new, action-adventure, comedy series from the SEAM writers workshop that explores impending eco-disasters in a highly entertaining and satirical way.

Synopsis: Diary of an Eco-Warrior chronicles the adventures of intrepid but unfortunate animal tracker, Chuck Collins, as he goes in search of endangered species to save from oblivion. Problem is, Collins is a disaster-magnet. Animals hate him... and they cant wait to tear him apart.

Dogged by the epic failure of his safari amusement park, he badly needs to resurrect his career before self-loathing consumes him. His producer puts him on the trail of vicious animals in peril - in the

hope that something catastrophic will get caught on camera and boost ratings. Reality exceeds expectation, however, when the hapless crew are caught in a cross-fire on their first expedition. Heavily armed poachers appear to be kidnapping exotic and dangerous animals for sport. My name is Chuck Collins and Im on a mission from Gaia. Inspired by a higher calling, Collins leads his crew across the globe to scupper the poachers plans, but ends up uncovering a far bigger conspiracy to save the planet by nefarious means.
