

Pen & Ink

This book contains forty years of poetry, from the very earliest beginnings, to the more accomplished work of later years. There was a lot of experimentation in those early years, feeling my way, so to speak. The one constant is rhyme and metre. Even in the very few poems that may look as if they're free form, the metre is there, as is the rhyme. It is the very basis of what I believe poetry to be. At 450 pages, there is an entire life's work laid out here, and in chronological order, so that the reader may himself appreciate the gradual acquisition of skills and confidence. This volume will take you up to, and just short of the Narrative phase I entered from 2006, all of which work is represented in the titles: Timepieces, At Journeys End, The Demon Horse on the Carousel, and recently, Poems of Myth & Scare. Forty years of love, pain, heartache and growth are represented here in 327 richly varied poems. Dip into it and enjoy the journey. David Lewis Paget.
