

Voice of My Soul: Wisdom from the Stillness

The quest to understand our true nature is as ancient as human existence. It has been answered in some form by all the major religions and debated by the world's great philosophers. But as author Marsha Eger notes, the information provided by texts, teachers, and clergy is only part of the equation. The journey to discover one's self and universal truth is ultimately a very personal one. In *Voice of My Soul: Wisdom from the Stillness*, Eger relates her experience in clear, accessible poetry and prose that are the outgrowth of her spiritual practice. Each page gives the reader an opportunity to create a deeper awareness of self and the Universe. This is not a journey of distance. You need travel no farther than where you always are the answers are within.
