

Death is Contagious

DEATH IS CONTAGIOUS addresses the discord that peaceful citizens encounter when cornered by a band of religious zealots. Motivated by a consuming hatred and activated by stunning Islamic defeats at the hands of the United States, a group of wealthy, mid-eastern students undertake the planning of terrorist attacks against the western infidels. Under the Persian code name Zoroastrians or Fireworshippers, the students conceive a plan designed to paralyze the nation. A hunting party, operating in a remote section of Wyoming, discovers that it is the target of a deadly assault instituted by Islamic fundamentalists. Uncovering the basis of why an isolated and diverse crew was selected by these vigilantes produces a net of complicated intrigue.
